

# SUNNEX SM

Sunnex SM is an anti-vibration machine mount especially developed for installation and damping of light and medium heavy machines e.g. high speed machines

Sunnex SM comprises a square cast iron pressure plate that rests on a Sunnex SP714 pad that withstands most types of grease, acid, oil and cooling emulsion normally used within the industry sector.

Sunnex SM can be combined with a wide variety of galvanized levelling bolts of different lengths, threads and diameters

## Preferences

- Loads up to 3400kg, per machine mount
- Cast iron pressure plate
- Sunnex SP714 damping pad
- Add bolts for precision levelling

## Applications

- Manufacturing industry
- Process industry
- Press- & stamping machines
- Extrusion machines
- Light to medium duty machines

## Advantages

- Excellent anti-vibration
- Excellent levelling add on
- Excellent friction to surface
- Reduction of noise

**Technical specification SM**

Rubber: Nitrile rubber  
 Finish: Painted cast iron  
 Load capacity: 275-3400 kg  
 Bolt dimensions: M12 - M24  
 Height, H: 26 -32 mm  
 Length, L: 83-173 mm

Model	Load area per machine mount daN (kg)	L mm	B mm	H mm	Part no.
SM 61	275-575	83	83	26	46002
SM 63	900-2400	148	148	30	46006
SM 64	1200-3400	173	173	32	46008
L mm	Levelling bolt	NV1 mm	NV2 mm	Part no.	
120	M12 x 1,25	9	19	19013	
150	M12 x 1,25	9	19	19014	
210	M16 x 1,50	12	24	19020	
250	M20 x 1,50	15	30	19025	
300	M24 x 1,50	17	36	19029
