

# LL

The Sunnex LL-series is a precision-engineered machine mount designed to provide stable leveling and exceptional versatility for a wide range of industrial, office, and warehouse equipment.

It features a zinc-plated leveling screw with an articulated base, allowing for inclinations of up to 10°.

The base is fitted with a thin nitrile rubber friction pad, ensuring a stable installation with excellent grip on various surfaces.

## Features

- Loads up to 2000kg per machine mount
- Zinc-plated
- Nitrile compound
- Integrated galvanized bolt with precision levelling
- Inclinations up to 10°

## Applications

- Engineering machinery
- Warehouse equipment
- Office equipment
- Home appliances
- Light to medium duty machines

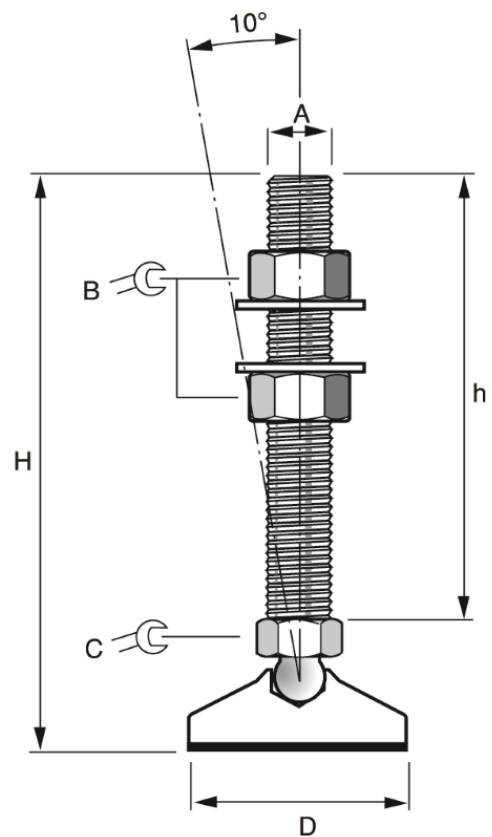

## Benefits

- Excellent levelling
- Great friction to surface
- Good stability
- Optimized for inclined surfaces

## Technical specification LL

Rubber:	Nitrile rubber compound
Finish:	Zinc-plated
Load capacity:	1000-2000kg
Diameter, D:	32-60mm
Height, H:	105-110mm
Height, h:	75-80mm
Key grip, B:	19-22mm
Key grip, C:	14-16mm
Bolt size, A:	M12-M14
Inclination:	0-10°
