

SP

Sunnex SP is a series of damping pads designed for a wide range of industrial applications. They effectively reduce the impact of shocks and vibrations, minimize noise transfer, and prevent machines from shifting during operation.

Each pad in the Sunnex SP series is made from a specially formulated nitrile rubber compound, offering high resistance to grease, oils, and cooling emulsions commonly used in industrial environments.

Available in five distinct models, Sunnex SP provides varying levels of hardness and load-bearing capacity, ensuring a tailored solution for different applications.

Features

- Loads up to 40kg/cm²
- Nitrile compound
- Five different hardnesses
- 450x450mm
- Easy to adjust size on-site

Applications

- Manufacturing industry
- Process industry
- Press- & stamping machines
- Extrusion machines
- Light to heavy duty machines

Benefits

- Excellent anti-vibration
- Great friction to surface
- Easy installation
- Reduction of noise

Technical specification SP

Rubber:	Nitrile rubber
Load capacity:	0,5-40kg/cm ²
Height, H:	8-13mm
Length, L:	450mm
Width, B:	450mm

Model	Load range daN/cm ²	Color	Thickness mm	Part no.
SP 710	0,5–1,75	Black	8	10710
SP 711	1,0–4,0	Black	8	10711
SP 712	1,0–8,0	Black	8	10712
SP 713	2,0–15,0	Black	13	10713
SP 714	10 –40	Green	13	10714
